Features	Beaulieu Lab Certified, CARB II Compliant, FloorScore, Forest Stewardship Council
Installation Method	Floating, Glued, Nail, Compatible With Embedded Radiant Heating, Staple
Installation	Kitchen, Dining Room, Living Room, Bedroom, Basement, Walls
Warranty	Structural Integrity <i>Lifetime</i> Finish <i>35 Years</i> No Questions Asked <i>30 Days</i>

BRAND FEATURES

Resistant to normal changes in temperature

Reduced eco-footprint

Suitable for use over embedded heating systems

Can be installed on all floor levels

PACKAGING

Planks Per Box	8
Boxes Per Pallet	50
Box Weight	50.69 Pounds (22993.27 Grams)
Square Feet Per Box	31.08
Square Meters Per Box	2.89
Square Feet Per Pallet	1554.32
Square Meters Per Pallet	144.4

MOLDINGS

Flushmount Reducer

84" X 0.472" X 2" (2133.60 mm X 12.30 mm X 51 mm)

This molding provides a smooth transition between floor coverings with different heights.

Flushmount Stair Nose

84" X 0.472" X 2.750" (2133.60 mm X 12 mm X 69.850 mm)

This molding is used to properly finish each step and enhance the beauty of a landing. For all tongue and groove engineered hardwood, this molding is of the same height as the floor covering which prevents it from becoming a trip hazard.

Square Nose

84" X 0.472" X 2" (2133.60 mm X 12 mm X 50.80 mm)

This molding finishes the flooring edge of a landing or for sharper transition between floor coverings with different heights compared to a reducer.

T-Molding

84" X 0.460" X 2" (2133.60 mm X 11.68 mm X 51 mm)

This molding is used in doorways and entryways or for transition between same floor levels. Floating installations greater than 40' (12 m) lengthwise or greater than 26' (8 m) widthwise or those including separate rooms will require the use of this molding.
